

# 9-10925

## Standard sampling point assembly - complete with fixed sampling point

### Description

---

The 9-10925 is a flush mount, capillary sampling point for use with false ceilings. It is supplied complete with a 27mm diameter t-union, to which the flexible sample pipe connects. The flexible sampling pipe has a diameter of 10mm and is 1m long. At the end of the flexible sampling pipe, the sampling point is connected which fits onto the false ceiling.

### Details

- Flush mount sampling point

# 9-10925

## Standard sampling point assembly - complete with fixed sampling point

### Technical specifications

---

#### Sampling pipe

---

diameter	10mm (outer)
length	1m
color	Red

---

#### Physical

---

Physical dimensions	36 mm (Sampling point diameter) 10 mm (Outer sampling pipe) 1 m (length) 27 mm (Inner T-Union diameter)
Colour	White

---

#### Environmental

---

Environment	Indoor
-------------	--------

---

#### Standards & regulation

---

Certification	EN54-20
---------------	---------

---

#### Sampling point

---

diameter	36mm
color	White

---

#### T-union

---

diameter	27mm (inner)
color	Red
